Cross-sectional Height:

Between 0.100 inches and 0.106 inches

Center Hole Diameter:

Between 2.280 inches and 2.320 inches

Peripheral Diameter:

2.506 inches

Elongation Percentage:

150

Special Features:

Cross-sectional shape style: 116 irregular shape from old fiig a03200

Material:

Rubber synthetic sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
