Cross Sectional Shape:

O-ring

Cross-sectional Height:

0.097 inches

Center Hole Diameter:

0.755 inches

Hardness Rating:

50.0 shore durometer a

Material:

Rubber butadiene-acrylonitrile class nbr

Material Specification:

Ams 3202 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
