Cross Sectional Shape:

Square

Fabrication Method:

Laminated and woven

Cross-sectional Height:

1.000 inches

Cross-sectional Width:

1.000 inches

Friction Treatment Material:

Rubber

Lubrication Material:

Mineral oil and graphite

Cubic Measure:

1.00 cubic feet

End Application:

Stabilizer fin assembly 1890934-1 aboard 270 ft wmec class coast guard vessels

Material:

Cotton duck and rubber, synthetic

Material:

Cotton and rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
