**Cross Sectional Shape:**

Square

**Fabrication Method:**

Laminated and woven

**Cross-sectional Height:**

1.000 inches

**Cross-sectional Width:**

1.000 inches

**Friction Treatment Material:**

Rubber

**Lubrication Material:**

Mineral oil and graphite

**Cubic Measure:**

1.00 cubic feet

**End Application:**

Stabilizer fin assembly 1890934-1 aboard 270 ft wmec class coast guard vessels

**Material:**

Cotton duck and rubber, synthetic

**Material:**

Cotton and rubber synthetic

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A26800
