Cross Sectional Shape:

Cup

Cross-sectional Height:

Between 0.091 inches and 0.095 inches

# Center Hole Diameter:

Between 1.873 inches and 1.874 inches

## **Peripheral Diameter:**

Between 2.485 inches and 2.490 inches

Angle:

85.0 degrees

Material:

Plastic polytetrafluoroethylene

### **Material Specification:**

L-p-402 type 1 federal specification single material response

#### Shelf Life:

N/a

### Unit Of Measure:

Demilitarization:

No

---

## Fiig:

A032a0
