Fabrication Method:

Solid

Overall Length:

66.288 inches

Cross-sectional Height:

0.750 inches

Cross-sectional Width:

1.062 inches

Construction:

Solid

Material:

Rubber isobutylene-isoprene class iir and rubber butadiene-styrene class sbr

Material Specification:

417, ty r, cl rs, gr 515, b, c1, f1, z1 military standard all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
