Inside Diameter:

Between 0.718 inches and 0.719 inches

Outside Diameter:

Between 1.203 inches and 1.213 inches

Material Thickness:

Between 0.007 inches and 0.009 inches

Ring Style:

Concentric

Outer Edge Thickness:

Between 0.007 inches and 0.009 inches

Special Features:

Rockwell superficial 30-n55 min hardness rating

Material:

Copper alloy 172

Fsc Application Data:

Afterburner nozzle cylinder, aircraft engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A08400
