Cross Sectional Shape:

Single lip

Accommodated Shaft Diameter:

Between 2.180 inches and 2.240 inches

Seal Width:

Between 0.530 inches and 0.590 inches

Housing Bore Diameter:

Between 3.280 inches and 3.340 inches

Construction:

Solid

Material:

Rubber

Material Specification:

Ams3304 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
