Cross Sectional Shape:

Dual lip

Accommodated Shaft Diameter:

Between 1.141 inches and 1.151 inches

Seal Width:

0.312 inches

Housing Bore Diameter:

1.625 inches

Construction:

One-piece

Material:

Rubber butadiene-acrylonitrile class nbr or rubber polyester urethane class au or rubber polyether urethane class eu

Material Specification:

Astmd2000 assn standard all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
