Cross-sectional Height:

7.0 millimeters

Center Hole Diameter:

132.7 millimeters

Hardness Rating:

75.0 shore durometer a

Special Features:

Cross-sectional shape style: 116 irregular shape from old fiig a03200

Material:

Rubber butadiene-acrylonitrile class nbr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
