**Cross Sectional Shape:**

Plain rectangular, straight face

**Outside Diameter:**

12.8800 inches

**Ring Style:**

Expanding concentric

**Radial Wall Thickness:**

Between 0.1330 inches and 0.1370 inches

**Overall Width:**

0.2670 mils and 0.2710 centimeters

**Joint Style:**

Vertical joint

**Material:**

Aluminum alloy

**Material Specification:**

Ams 4120 assn standard single material response

**Fsc Application Data:**

Aircraft eng, reciprocating

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A08400
