Fabrication Method:

Solid

Overall Length:

8.500 inches

Cross-sectional Height:

0.281 inches

Cross-sectional Width:

0.196 inches

Construction:

Solid

Material:

Rubber butadiene-acrylonitrile class nbr or rubber polyester urethane class au or rubber polyether urethane class eu

Material Specification:

Astm d2000 5bg715 assn standard all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
