Cross-sectional Thickness:
Between 0.027 inches and 0.037 inches
Lubrication Method:
Coated
Special Features:
Apertures of various shaped curvatures defying stylization
Lubrication Material:
Graphite both sides
Material:
Paper
Material Specification:
Mil-g-12803 f3 military specification single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A032a0
Mil-std (military Standard):
Mil-g-12803 spec.
