Cross Sectional Shape:

Square

Fabrication Method:

Compressed

Tempurature Rating:

550.0 degrees fahrenheit

Length:

40.000 inches

Cross-sectional Height:

0.312 inches

Cross-sectional Width:

0.312 inches

Lubrication Material:

Graphite

Material:

Plastic, mil-p-17303, class 1, type b

Material:

Resin and lead and cotton

Material Specification:

Mil-p-17303, class 1, type b military specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800

Mil-std (military Standard):

Mil-p-17303 spec.
