#### **Cross Sectional Shape:**

Cup

Cross-sectional Height:

Between 0.091 inches and 0.095 inches

# Center Hole Diameter:

Between 0.311 inches and 0.312 inches

## Peripheral Diameter:

Between 0.735 inches and 0.740 inches

Angle:

85.0 degrees

Material:

Plastic polytetrafluoroethylene

## **Material Specification:**

L-p-402, type 1 federal specification single material response

#### Shelf Life:

N/a

#### Unit Of Measure:

Demilitarization:

No

---

# Fiig:

A032a0
