Cross Sectional Shape:

D

Fabrication Method:

Braided

Min. Tensile Strength (psi):

Not rated

Tempurature Rating:

Not rated

Length:

Between 41.700 inches and 41.900 inches

Cross-sectional Height:

Between 0.240 inches and 0.290 inches

Cross-sectional Width:

0.250 inches

Lubrication Material:

Graphite

Material:

Asbestos and nickel alloy

Material:

Asbestos and nickel alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
