Cross Sectional Shape:

O-ring

Temperature Rating:

-65.0 degrees fahrenheit and 350.0 degrees fahrenheit

Cross-sectional Height:

0.070 inches

Center Hole Diameter:

0.489 inches

Hardness Rating:

80.0 shore durometer a

Material:

Rubber synthetic

Material Specification:

L308-80, fscm 45681 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
