Accommodated Shaft Diameter:

Between 1.184 inches and 1.186 inches

Seal Width:

Between 0.610 inches and 0.640 inches

Housing Bore Diameter:

Between 1.573 inches and 1.579 inches

Construction:

Solid

Material:

Rubber sealing element

Material Specification:

Bg720b14, fscm 81306 mfr ref single material response sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
