Cross Sectional Shape:

Hollow bulb-offset

Cross Section Inside Diameter:

0.820 inches

Cross-sectional Thickness:

Between 0.070 inches and 0.090 inches

Cross-sectional Height:

Between 0.910 inches and 0.970 inches

Construction:

Solid

Material:

Rubber synthetic

Material Specification:

La23-1195 fscm 36659 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
