Fabrication Method:

Solid

Offset Distance:

0.210 inches

Cross Section Inside Diameter:

0.340 inches

Cross-sectional Thickness:

0.080 inches

Cross-sectional Height:

0.500 inches

Cross-sectional Width:

1.350 inches

Construction:

Solid

Material:

Rubber sealing element

Material Specification:

Bms1-57 fscm 81205 mfr ref single material response sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
