**Cross Sectional Shape:**

O-ring

**Temperature Rating:**

-80.0 degrees fahrenheit and 450.0 degrees fahrenheit

**Cross-sectional Height:**

Between 0.100 inches and 0.106 inches

**Center Hole Diameter:**

Between 1.293 inches and 1.305 inches

**Material:**

Rubber silicone class q

**Material Specification:**

Ams-3304 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A032a0
