Cross Sectional Shape:

O-ring

Tempurature Rating:

-80.0 degrees fahrenheit and 450.0 degrees fahrenheit

Cross-sectional Height:

Between 0.100 inches and 0.106 inches

Center Hole Diameter:

Between 1.293 inches and 1.305 inches

Material:

Rubber silicone class q

Material Specification:

Ams-3304 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
