Cross Sectional Shape:
O-ring
Tempurature Rating:
-80.0 degrees fahrenheit and 450.0 degrees fahrenheit
Cross-sectional Height:
Between 0.100 inches and 0.106 inches
Center Hole Diameter:
Between 1.293 inches and 1.305 inches
Material:
Rubber silicone class q
Material Specification:
Ams-3304 assn standard single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A032a0
