Cross Sectional Shape:

Cup

Cross-sectional Height:

Between 0.170 inches and 0.180 inches

Center Hole Diameter:

Between 0.375 inches and 0.385 inches

Peripheral Diameter:

Between 0.589 inches and 0.590 inches

Angle:

Between 43.0 degrees and 47.0 degrees

Material:

Aluminum alloy 2024 or aluminum alloy 6061

Material Specification:

Qq-a-200/3 alloy 2024 t4 federal specification 1st material response or qq-a-200/8 alloy 6061 t4 or t6 federal specification 2nd material response or qq-a-225/6 alloy 2024 t4 t6 federal specification 1st material response or qq-a-225/8 alloy 6061 t4 or t6 federal specification 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
