Cross Sectional Shape:

V

Temperature Rating:

-40.0 degrees fahrenheit and 180.0 degrees fahrenheit

Cross-sectional Height:

0.050 inches

Center Hole Diameter:

Between 1.391 inches and 1.403 inches

Peripheral Diameter:

1.633 inches

Hardness Rating:

90.0 shore durometer a

Material:

Rubber synthetic

Material Specification:

N300-9, fscm 83259 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
