Cross-sectional Height:

Between 0.528 inches and 0.534 inches

Outer Groove Depth:

0.020 inches

Outer Groove Width:

0.094 inches

Center Hole Diameter:

Between 0.310 inches and 0.327 inches

Peripheral Diameter:

0.493 inches

Special Features:

Groove quantity, two

Material:

Aluminum alloy 2024

Material Specification:

Ams 4120g assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
