Cross Sectional Shape:

Spherical

Cross Section Inside Diameter:

Between 2.880 inches and 2.882 inches

Cross Section Outside Diameter:

Between 3.240 inches and 3.242 inches

Cross-sectional Length:

1.183 inches

Special Features:

Od edges chamfered 0.016 in. By 45 degrees

Material:

Graphite

Material Specification:

67fscm 51729 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A527p0
