Cross Sectional Shape:

Rectangular

Fabrication Method:

Solid

Overall Length:

14.000 inches

Cross-sectional Height:

0.250 inches

Construction:

Solid

Special Features:

Corner partially relieved approximately 26 degrees to accommodate 0.500 in. Lg

Material Specification:

820-1809-040 fscm 13499 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
