Accommodated Shaft Diameter:

1.000 inches

Seal Width:

Between 0.235 inches and 0.265 inches

Case Style:

Square

Sealing Element Style:

Angular

Material:

Steel case

Material Specification:

817 fscm 95019 mfr ref single material response sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
