Cross Sectional Shape:

Outside grooved and beveled, straight face

Inside Diameter:

3.690 inches

Outside Diameter:

4.750 inches

Material Thickness:

0.125 inches

Ring Style:

Concentric

Material:

Aluminum alloy 6061

Material Specification:

Ams 4027 temper t6 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A08400
