Cross Sectional Shape:

Cup

Center Hole Diameter:

Between 8.250 inches and 8.253 inches

Peripheral Diameter:

Between 11.590 inches and 11.600 inches

Special Features:

18 holes 0.281 inch diameter equally spaced on 9.250 inch bolt circle dia

Material:

Copper alloy 903

Material Specification:

Qq-c-390 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
