Cross Sectional Shape:

Rectangular

Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

500 pounds per square inch

Tempurature Rating:

Not rated

Length:

Any acceptable

Surface Condition:

Any acceptable

Cross-sectional Height:

Between 0.469 inches and 0.531 inches

Cross-sectional Width:

Between 0.173 inches and 0.203 inches

Color:

Black

Material:

Rubber synthetic/neoprene/ supersoft

Material:

Rubber synthetic/neoprene/ supersoft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
