Inside Diameter:

Between 7.2400 inches and 7.3700 inches

Ring Style:

Contracting concentric

Radial Wall Thickness:

0.0320 inches

Overall Width:

Between 0.5900 inches and 0.6100 inches

Material:

Stainless steel

Material Specification:

Ams5608 assn standard single material response

Fsc Application Data:

Turbine engine model t76-g-420

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A08400
