**Cross Sectional Shape:**

Circular

**Fabrication Method:**

Cellular, unexploded

**Overall Length:**

5.990 inches

**Inside Corner Radius:**

0.310 inches

**Cross Section Outside Diameter:**

Between 0.122 inches and 0.128 inches

**Construction:**

Solid

**Material:**

Rubber chloroprene class cr

**Material Specification:**

Ams 3240 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A032a0
