Cross Sectional Shape:

Circular

Fabrication Method:

Cellular, unexploded

Overall Length:

5.990 inches

Inside Corner Radius:

0.310 inches

Cross Section Outside Diameter:

Between 0.122 inches and 0.128 inches

Construction:

Solid

Material:

Rubber chloroprene class cr

Material Specification:

Ams 3240 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
