Cross Sectional Shape:

Rectangular

Fabrication Method:

Cellular, unexploded

Overall Length:

14.000 inches

Cross-sectional Height:

1.380 inches

Cross-sectional Width:

0.120 inches

Construction:

Solid

Special Features:

One side cut back 1.000 in., 1.120 in. End cut length, 0.260 in. End cut width on opposite end of seal

Material:

Rubber silicone class q

Material Specification:

Ams 3195 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
