Cross Sectional Shape:

O-ring

Cross-sectional Height:

Between 0.067 inches and 0.073 inches

Center Hole Diameter:

Between 1.104 inches and 1.124 inches

Special Features:

Gap in outer periphery 0.308-0.370 in. Lg

Material:

Rubber chloroprene class cr

Material Specification:

Ams 3209 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
