Fabrication Method:

Cellular, exploded

Aperture Width:

287.64 millimeters

Aperture Length:

1872.48 millimeters

Cross-sectional Thickness:

1.52 millimeters

Cross-sectional Height:

9.54 millimeters

Cross-sectional Width:

18.44 millimeters

Construction:

Two-piece

Material:

Rubber synthetic sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
