Cross Sectional Shape:

Cup

Cross-sectional Thickness:

Between 0.443 inches and 0.538 inches

Cross-sectional Height:

Between 1.016 inches and 1.040 inches

Center Hole Diameter:

Between 0.256 inches and 0.258 inches

Peripheral Diameter:

Between 2.438 inches and 2.453 inches

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-225/8 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
