## **Overall Length:**

2.140 inches

## **Tempurature Rating:**

-105.0 degrees fahrenheit and 400.0 degrees fahrenheit

# **Overall Width:**

0.960 inches

# **Special Features:**

K0.450 in. Wide min and 0.720 in. Wide max; 0.450 in. Lg min and 1.480 in. Lg max, 0.06r maximum five places; smaller gasket mounted

on larger gasket 0.120 in. Min and 0.540 in. Maximum along Ig and 0.120 in. Along width

#### Material:

Rubber silicone class q

## Material Specification:

Ams 3195 assn standard single material response

# Shelf Life:

N/a

### Unit Of Measure:

--

#### **Demilitarization:**

No
