Cross Sectional Shape:

Tee intermediate ring

Inside Diameter:

0.810 inches

Outside Diameter:

1.053 inches

Special Features:

Polytetrafluoroethylene top and bottom rings are graphite filled.

Height:

0.188 inches

Material:

Rubber butadiene-acrylonitrile class nbr intermediate ring

Material Specification:

5f573, 5711 mfr ref single material response top ring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
