Accommodated Shaft Diameter:

Between 1.0585 inches and 1.0595 inches

Seal Width:

Between 0.131 inches and 0.141 inches

Housing Bore Diameter:

Between 1.238 inches and 1.240 inches

Construction:

Solid

Special Features:

Two grooves on id

Material:

Rubber butadiene-acrylonitrile class nbr spreader

Material Specification:

Turcon 99, fscm 97820 mfr ref all material responses single ring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0

Mil-std (military Standard):

Mil-p-83461 spec.
