Cross Sectional Shape:

C-section w/ helical spring

Accommodated Shaft Diameter:

20.0 millimeters

Seal Width:

2.5 millimeters

Housing Bore Diameter:

25.0 millimeters

Construction:

Solid

Special Features:

Retainor graphite filled ptfе

Material:

Stainless steel spring

Material Specification:

Qq-w-423 federal specification single material response retainer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
