Cross Sectional Shape:

C-section w/ helical spring

Accommodated Shaft Diameter:

80.0 millimeters

Seal Width:

0.66 millimeters

Housing Bore Diameter:

90.0 millimeters

Construction:

Solid

Special Features:

Ring graphite filled ptfe

Material:

Stainless steel spring

Material Specification:

Qq-w-423 federal specification single material response retainer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
