Cross Sectional Shape:
C-section w/ helical spring
Accommodated Shaft Diameter:
80.0 millimeters
Seal Width:
0.66 millimeters
Housing Bore Diameter:
90.0 millimeters
Construction:
Solid
Special Features:
Ring graphite filled ptfe
Material:
Stainless steel spring
Material Specification:
Qq-w-423 federal specification single material response retainer
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A032a0
