Tempurature Rating:

250.0 degrees fahrenheit

Accommodated Shaft Diameter:

5.375 inches

Seal Width:

Between 0.484 inches and 0.516 inches

Accommodated Shaft Maximum Rated Speed:

3000 feet per minute

Case Style:

Square

Housing Bore Diameter:

6.375 inches

Sealing Element Style:

Angular

Operating Medium:

Oil or water

Maximum Pressure Rating:

7.0 pounds per square inch

Material:

Stainless steel spring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
