Cross Sectional Shape:

Closed eye

Min. Tensile Strength (psi):

Not rated

Temperature Rating:

Not rated

Length:

Any acceptable

Cross Section Inside Diameter:

Between 0.250 inches and 0.332 inches

Cross Section Outside Diameter:

Between 0.375 inches and 0.457 inches

Cross-sectional Height:

1.375 inches

Material:

Glass fibrous or glass fiber and asbestos, hh-p-31, type 1

Material:

Glass fiber and asbestos chrysotile and copper alloy and cotton

Material Specification:

Hh-p-31, type 1 military specification 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800

Mil-std (military Standard):

spec.
