Accommodated Shaft Diameter:

Between 1.311 inches and 1.313 inches

Seal Width:

Between 0.025 inches and 0.035 inches

End Application:

Aircraft b-1b

Case Style:

Recessed

Sealing Element Style:

Angular

Material:

Plastic polytetrafluoroethylene sealing element

Material Specification:

Ams 4016 assn standard single material response case

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
