Cross Sectional Shape:

C-section w/ helical spring

Accommodated Shaft Diameter:

Between 0.499 inches and 0.501 inches

Seal Width:

Between 0.122 inches and 0.138 inches

Housing Bore Diameter:

Between 0.686 inches and 0.688 inches

Construction:

Solid

Special Features:

Operating range 350 , 500 grams force

Material:

Steel comp 302 spring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
