Special Features:

Material furnished shall contain no mercury or mercury compound and shall be free from mercury contamination; inner diameter 4.758 in min/4.760 in max; outer diameter 5.588 in min/5.590 in max; material thickness 0.50 in

Material Specification:

Qq-b-639b alloy 464 federal specification single material response packing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
